

Jupiter Global Financials

Morningstar Rating:
★★★★

A sub-fund of The Jupiter Global Fund SICAV

- Jupiter Global Financials (the "Fund") invests principally in equities of financial sector companies on an international basis. The fund may also invest, to a lesser extent, in property related companies. Such investments may be subject to investment risks, credit risks and foreign exchange risks.
- The Fund can use gearing, which is a method used to increase the exposure of the portfolio to financials markets through the use of loans or financial derivative instruments ("FDI"). Gearing may lead to large and sudden movements in the value of the portfolio.
- The Fund may make use of any one or a combination of the following instruments for investment, hedging or efficient portfolio management purposes: futures, options and swaps and other FDI. The Fund has the power to use FDI extensively for investment purposes. Investment by the Fund in FDI may involve significant leverage risks, counterparty risks, basis risks, liquidity risks and the risks of total/significant loss resulting from the use of FDI for investment purpose.
- This investment involves risks which may result in loss of part or the entire amount of your investment. Investors should not base their investment decision on this document alone and must refer to the Hong Kong offering documents of the Fund for further details (including risk factors) prior to investing.
